

MAJESTIC HAIR FLOWER

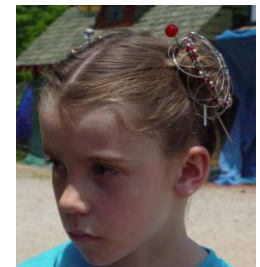

The Majestic Hair Flower is sacred geometry, patterned after an ancient design. Some say it is roughly as old as 6000 years, but no one knows for sure. The original design is thought to have pre-dated Ancient Mesopotamia. As an actual working model for the mathematical formula for π ; the piece itself can twist and turn into more than 60 different shapes. More than 20 of which can be used in the hair; others as a bracelet or other jewelry.

The Majestic Hair Flower will work on almost any hair. It is quick and easy. Your hair may be long, short, thick fine, curly, or straight. The only requirement is that your hair be long enough to go into a ponytail holder.

You are the creator. You get to twist and turn this piece of jewelry into your own unique shapes! Try it, it's fun!! Don't worry, you will not break it. And even if you do, we will replace it for free.

INSTRUCTIONS

- 1) The first thing that you always do is to put your hair into a ponytail holder. You can put part of it up, all of it up, or split into two ponytails, whatever you wish.
- 2) Make the Flower into the Shape that you would like to wear in your hair today. Keep in mind if you want a ponytail or a bun and make the appropriate shape.
- 3) For a ponytail:
 - a. Separate a small piece of hair from the rest of the ponytail and wrap it around the ponytail holder.
 - b. Place the Hair Flower in place by sliding the ponytail through.
 - c. Finally, put the two stems in the formation of an X through the Flower and under the ponytail holder (Make sure the pin goes over the wire of the Flower, under the ponytail holder, then back over the wire of the Flower again).

- 4) For a Bun:
 - a. Wrap your hair into the shape of a bun. Don't worry if it is not perfect (perfection is not required). Twist the hair and wrap it around itself (tightly for best results).
 - b. Place the Hair Flower over the bun (Sometimes it helps to turn the Flower in the direction that you twisted your hair in order to keep wisps of hair from escaping).
 - c. Finally, put the two stems in the formation of an X through the Flower and under the ponytail holder (Make sure the pin goes over the wire of the Flower, under the ponytail holder, then back over the wire of the Flower again).

That's it, you're done. This is the easiest and most beautiful thing that you can do with your hair ever, not to mention the most versatile.

Note: Leave your Majestic Hair Flower out on the table or some place visible. Do not put it away. **Play with it!!!!** Have fun with it; see how many of your own shapes you can find.

Thank you. We appreciate your patronage.
